

THE NEXT ATTORNEY GENERAL

The office of Attorney General is second only to the Governorship in public importance. It should be filled during the next four years, as it now is, by a clear headed, well trained lawyer and a man of courage and capacity. Richard C. Stoddard measures up to the full size of the place. The fact is appreciated in Reno, where Mr. Stoddard is still serving as City Attorney, but a brief statement of his achievement in his present office will be valuable to voters throughout the State.

As City Attorney of Reno Mr. Stoddard has drawn about forty new laws relating to every branch of municipal affairs. Several of the most important of these laws were attacked in the courts, but the constitutionality of all has been sustained.

In the city of Reno Mr. Stoddard accomplished the task of lowering the price of electric lights to the city thirty per cent.

He accomplished this business so satisfactorily that the Reno Gazette, a Republican newspaper, had this to say about him.

"The City Council is to be congratulated on its successful conduct of the affair in hand. And right here we wish to say a word in recognition of

the services of City Attorney Stoddard in this connection. If the outcome for the demand for lower rates has anything to recommend itself to the people of Reno, Mr. Stoddard should have a hearty share of the credit. From the very inception of the determination to ask for lower rates, he has conducted the city's side of the case in a masterly fashion. Opposed to him was a large corporation, with able lawyers who are retained by the year to look after its interests. The question was somewhat of a new one to the City Attorney, but he went to the bottom of things and by his questioning of the experts of the opposition he soon proved to them that he was in the game "for keeps."

The city has breathed new life into a great principal—the principal that public utility corporations are under the control of the people who give them being."

That is the kind of Attorney General Nevada wants for the next four years—a man who goes to the "bottom of things," a man who can "break new ice" into principals vital to the welfare of the people. Stoddard should be elected by a big majority and doubtless will be.

TILLY OLSON, A COMEDY DEMOCRATIC NOMINEES IN AND THAT IS ALL BATTLE MOUNTAIN

Tilly Olson, the Swedish play in the leading part of which Miss Emily Erickson has won celebrity is essentially a comedy, the melodramatic touches being only subsidiary to the generally breezy character of the piece. The author has made the role of Tilly very amusing by playing on the quaint and droll traits characteristic of the Swedish nature. Tilly is not an ordinary person and her actions always take an unlooked for twist. A fine scenic production has been prepared for the play. There are four acts and eight scenes, each one of which has been painted especially for the production by the well known scenic artists of the Broadway Theatre, New York. Messrs. Moses & Hamilton. The play will be produced at the Opera House next Monday evening and the box sheet for reserved seats is now open at Steinmetz' drug store.

CHRISTMAS WORK

Miss Frederika Hentschel has a supply of crocheted work on hand that will make excellent Christmas gifts. She also requests her customers who wish special work done to bring in the orders at once.

The Tilly Olson company appears at Virginia City tonight.

BATTLE MOUNTAIN, Oct. 27.—The Democratic-Silver party nominees arrived in this place today, and everything points to a splendid meeting this evening. The course of the campaigners have led them along the line of the Southern Pacific eastward, and they are leaving in their wake the sentiments that they will win easily throughout this country.

An unexpected interest is being aroused in the campaign, which at first did not attract much attention in this section. The Democratic-Silver men are awakened the people here to the real and vital importance of the coming election on November 6, and they will turn out to the extent of the full register and vote according to their beliefs.

Judging from the enthusiasm apparent here today and the reception accorded the nominees there is no question but that Battle Mountain will give them a splendid majority.

COMMITTED SUICIDE

GARDNER PLACE SUFFERS FROM BIG FIRE

Fire destroyed the old Gardner barns and outhouses last night.

The flames were discovered shortly after seven o'clock and as a slaughter house had been operated in the main buildings, the grease and oils soon fed the flames so strong that the firemen could do nothing with them.

The houses and contents were totally destroyed, with a loss to M. C. Gardner of about \$5,000 and to Chedie, the butcher, of about \$2500, no insurance.

A lot of hay, nine beaves, tallow, and implements for farm work were burned. Also a huge cat that ran down the hill back of the building and jumped into the midst of the fire. A watch dog, tied in the place, it is said, was burned also.

POWER OFF

The electric power was turned off for three hours this afternoon on account of a burned-out switch board in Virginia City and the Appeal is late in consequence.

GEO LAMP EXPIRES AT THE RAILWAY STATION

George Lamp, of Brooklyn, N. Y., died in the railway station last night.

He came here less than a week ago in search of health but the climate did not give him the relief he hoped for. Yesterday he decided to return home and Dr. van Radesky accompanied him to the station and placed him in the car. A moment later he noticed the man was in a dying condition, the excitement of the journey and the moving being too much for him.

Lamp was removed to the waiting room where he expired a moment later. The body is at Kitzmeyer's where it awaits receipt of instructions from Lamp's family. Deceased was a member of good family in New York and C. F. Cutts of this city was his business agent while here.

Mr. Cutts received a wire this afternoon requesting him to see that the remains were prepared for ship to his home in the east.

The claim was formerly owned by Joe McCarthy, Joe Korman and other Comstockers, who worked the property without success. Mr. Day continued the work only about eight feet when he struck a good body of ore.—Enterprise.

ANARCHY IN SAN FRANCISCO

San Francisco presents a spectacle to the world that might well give pause to her friends and cause them to wonder what new cataclysm is preparing for her.

Abe Ruef, a political boss and the fidus Achates of Mayor Schmitz has been under investigation for some alleged acts in connection with the city government. Mayor Schmitz is implicated and like the imperishable Boss Buckley he has found it imperative to take a trip out of the United States for his health at this particular time. Significance may be attached to the trip at this time, or not, as the case may be. Ruef however, remained with the ship when the people demanded a grand jury and an investigation of Schmitz and Ruef, the latter gentleman took umbrage.

District Attorney Langdon is after Schmitz and after Ruef. He also is running for governor of California. While he was away campaigning the ingenious Ruef caused the acting mayor to dismiss Langdon and appoint Ruef in his place as district attorney. This was done.

Ruef is up against an injunction, but a little matter like that won't bother him long. With Ruef in the district attorney's office, Ruef will know whether a case can be made against Ruef and Schmitz and District Attorney Ruef will advise the grand jury accordingly.

The nice part is that Ruef is there with the goods and no one seems to know just what they are going to do about it. San Francisco has had enough troubles without this Ruef person and now her cup seems overflowing.

The committee in charge of the candidates' ball to be given by the candidates of both parties at the opera house Friday evening, November 2, is sparing neither time nor expense to make the party a success.
